CMRA/WERA Endurance Series-Round Two Texas World Speedway, College Station, Texas, April 4, 1992

# NOBLE KNIGHTS SLAY BEAST AT TWS RENAISSANCE

track.

The Noble Knights (#55) on their way to their first overall win. Photo by: Mark Rutkowski

The Noble Knights rode their big white horse "Suzuki" for 232 laps to joust 44 other teams and score a big six hour endurance win in the CMRA's first event at the new Texas World Speedway. The win avenged a loss to Team Beast just three weeks earlier, and the two teams now find themselves dead even in overall points. Head-quartered in Grand Prarie Texas, relative newcomer Ron Noble has managed to put together an effective combination, using two fast riders (Jeb Bridgeman and Marcus McBain), quick pit stops, and a conscious decision to take it easy on the tires.

Six o'clock in the morning found a long line waiting at the gate to get in the facility. With the new road course running only 1.8 miles in length (compared to the old 3 mile course), officials limited the entry to the first 45 teams that showed up. By ten, the field was full and teams began signing up on the alternate list. Shortly after noon, the day had warmed up nicely and the grid began lining up for the start. Among the favorites was the formidable N2 Racing Team, now equipped with a new Honda CBR900RR and definately looking to do business. At 12:20, the red light switched to green and the race was on.

Razor Razor's Fred Provis led the first lap before crashing in turn four, turning over the lead to Team

TSBA's Mark Black. On lap three the Kawasaki of Universal City team, a Suzuki piloted by either James Schaefer or Craig Gleason, went to the front. It appeared they were using the race as a testing session, as they pulled out while leading at the one hour mark and would return occasionally to turn blazingly fast laps. Anyway, on lap 46, N2 took over and began to wear down the field. Team riders Jim Sabin and Michael Myers took long turns, thanks to their enlarged fuel tank, and the nimble new Honda seemed ideally suited to the

After two hours, N2 led TSBA by two laps, Team Beast by three, and the Noble Knights by four. During the third hour N2's competition suffered problems that put them even further behind. TSBA's 1100 Suzuki was making plenty of horsepower and the team was having fun drifting it out of corners. Robert Marsh had hoped the new Dunlop 591's would make it two thirds of the way at least, and if they didn't make it all the way he had some pretty good used tires mounted up. The reality was that the tires were wasted even before the halfway mark. They changed the tires (and riding styles) and began to hunt for more tires. The Noble Knights were doing a good job of conserving tires, but lost about two minutes when Marcus McBain locked the front tire coming in for a pit stop. N2 continued to streak around the track and by the end of three hours, had a commanding seven lap lead. But all was not well in the N2 pits. Their tires were shot and their machine was so new that spare wheels were not yet available. They were going to have to change tires the old fashioned way, by prying them off and on. On lap 151 they brought it in and feverishly began changing tires while the competition quickly unlapped them-

Continued on Page 2

selves. In just ten minutes, they re-entered the race just in time to retain their lead ahead of Moto Liberty, the Noble Knights, and the Killer Bees—all four teams now on the same lap.

Once again, N2 began to exert their superiority and before long had put a lap on the field. And then it happened the red flag came out because of oil on the track. For some teams it was a blessing and for others a curse. For Team Beast, it was the latter. Like N2, they had just finished changing tires and could only grind their teeth and watch as the Noble Knights and others leisurely changed their tires while cornerworkers cleaned the track.

At 4:43, the race resumed with N2 again pulling away from the field, dicing with the on again-off again entry from Kawasaki of UC. The Noble Knights, Team Beast, and Moto Liberty fought over second while the Killer Bees (Robie McGonagill and Steve Davison) faded when their rear fender came adrift and caused trouble with the CDI box. As the race wound towards a conclusion, it appeared the N2 team had trounced the competition again, like it had done so many times the year before. But like they say, it ain't over till its over. Endurance races give each team about a million chances to make a mistake and with only 15 minutes to go, N2 made the Big One. Michael Myers (bless his heart) suffered the embarrassment of crashing when he was supposed to be taking it easy, and though he was not hurt (physically), the bike was heavily damaged. Instead of racing for second, it was now a race for first and the Noble

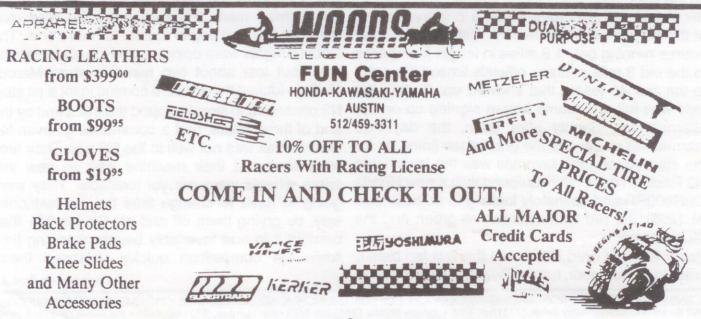

#46 Moto Liberty and #4 Team Scream. Photo by: Mark Rutkowski

Knights' Jeb Bridgeman was the best man at the end, running 1:19 lap times on severly worn tires to hold off Team Beast (Andy East, Bryan Hanson, and Tim Barnes) by just 20 seconds. Moto Liberty placed third overall with Doug Carmichael, Tatsu lino, and Taizo Hatakeyama.

Somewhat overshadowed by the overall race were the class battles. In Lightweight Superbike, BlackFire Racing took the win over Suave and the Null Set. HSR Endurance topped 12 other teams for the Mediumweight Production win over Dynatech II and Team Thunder. In Mediumweight Superbike, former powerhouse Team Scream salvaged third place (behind Beast and Moto Liberty) and in Heavyweight Production it was Noble, Hipstak, and Speedworks. Team TSBA found enough tires to win the Heavyweight Superbike class ahead of N2 and Legends Racing.

As the series heads back to Oak Hill for a four hour, nothing is certain except that if you want a spot on the grid, you'd better get there early!

#### CMRA/WERA Sprint Race Series—Round Two Texas World Speedway, College Station, Texas, April 5, 1992

## **TEXAS WORLD IN THE RAIN**

The weatherman warned everybody, and he was right. It rained and rained and rained some more. Jed Davis and Tommy Hayden took to the wet track like ducks to water, winning three races each. Double winners included Joe Prussiano, Larry Locklear, and Greg Abbott. Even with all the withdrawals, over 400 entries remained entered and the grids were full despite the awful conditions.

Tommy and Nicky Hayden ran 1-2 in Super-50 until Nicky slid down on lap 4 moving Tommy Hickman into second and Bill LeSueur into third. Greg Mesa won the Novice segment, overtaking William Comegys and Chris Reed late in the race. John Etheridge was third.

Jed Davis took the Formula Two race wire to wire in convincing fashion, outrunning Kelly Moody and Tommy Hayden in the process. In F2 Novice, spunky Sharon Earthman won ahead of Gary Allen and William Comegys. Larry Locklear jumped out front to lead C Superbike but was overtaken by Pete Martins at the halfway flags. Robie McGonagill was third. In the Novices, little known Greg Howard took first place honors over Toby Grace and Gregory Fowler.

Joe Prussiano surprised Greg Abbott on the last lap to win A Superstock with Robie McGonagill (who led the first three laps) finishing third. In AP Novice, Todd Driggers passed Charlie Brown on the second lap and held on for the win with Don Campos third.

Jed Davis won his second race in D Superbike defeating his nemesis Robert Marsh in the process. Kelly Moody was third. Gregory Fowler won the Novice segment ahead of Craig Waugh, who picked up the pace quite a bit after being passed on lap two by Sharon Earthman.

Race #6 was a Formula Vintage sandwich and leading the pack on lap one was none other than #377 Ronnie Lundsford, just like he used to do in the "old" days. Tommy Hayden zipped by to win the race overall and behind Ronnie came W David Cheek, Nicky Hayden, David Hirsch, Peter Pohlman, Chris Stobaugh, and Jim Beedle—all aboard a wide variety of equipment.

Superstock action at Texas World. Photo by: Mark Rutkowski

Larry Locklear was probably bothered by the rain less than any other rider, as he likes to slide the motorcycle everywhere he goes anyway. He won Formula One easily ahead of Damon Harvey and Dean Webster. Billy Click won F1 Novice ahead of Ramon Avina and Clyde Akers.

Few riders show as much determination (or cornering speed) as Jay Deaton. He won Production 50 by a suprisingly wide margin ahead of the lightweight Hayden Brothers Nicky and Tommy. John Etheridge won P5 Novice while Craig Waugh came up to pass Greg Mesa for second.

Locklear won his second race in C Superstock, out-running Joe Prussiano and Pete Martins. Martins was later protested and disqualified for riding a Superbike spec machine in the Superstock class. Todd Driggers also won his second race of the day in CP Novice ahead of Charlie Brown and Toby Grace.

Tommy Hayden won Formula Clubman on his Moto Liberty Honda RS 125 ahead of Jack Bates and Eric Falt. Jim Beedle outran Michael Karnes and Eric Wasson for the Novice win.

The rain had stopped and the track was starting to dry out a little as Larry Locklear led the B Superstock race. Prussiano took over the lead at the halfway point and went on to win. Pete Martins was third. In BP Novice, Charlie Brown got the best of Todd Driggers and Toby Grace.

Charles Ergle won the Unlimited Singles (& Twins) class with his Yamaha SRX-6. Jack Bates nipped Tim Barnes on the last lap for second. Peter

Continued from Page 3

#147 Steven Isenhower loses the handle. Photo by: Mark Rutkowski

Pohlman won his first ever race in UT Novice ahead of Scott Dennis and Russel Bauer.

Greg Abbott finally got into the win column in B Superbike, passing Larry Locklear on Lap 4 (Mark Black was third). Greg Howard won the Novice segment, finishing ahead of Jeff Lewis, Charlie Dill, and several Experts as well.

Jed Davis chalked up win number three in D Production, again at the expense of Robert Marsh. Rob Tuluie finally put it all together to finish third overall (1st V4) ahead of lots of FZR 400's. Ronnie Luna won the D Production Novice class ahead of Sharon Earthman and Provisional Novice Chris Newhouse. Bobby Buce was second in V4, David

# **CLUB NEWS**

BULLETIN: As most of you know, the AMA moved the date of their spring Texas World National twice and it now conflicts with our May 30,31 event at Oak Hill. The Board decided to move our race up one week to May 23,24 (Memorial Day weekend) so that our racers can watch and participate in the National also.

Practice on Saturday morning May 2nd will be open to all, not just the endurance teams. See the schedule of events.

In addition to their sprint race contingency program which pays Novice and Expert riders to ten places, Metzeler has announced a contingency program for the CMRA's Big Bike Endurance Series. They will pay product certificates to three places in each of the five endurance classes. First pays \$50, second \$40, and third \$25. The CMRA is woefully behind in attracting sponsers to it's first rate endurance series and this is a good start. Thanks to Marcus McBain for bringing the series to Metzlers attention and to Metzelers Garry Gallagher for approving the plan. To sign up your team, look on the forms table for the contingency form marked Metzeler Endurance at the top.

Attention endurance teams: Entries for the four hour at Oak Hill will again be limited to the first 45 teams that come to registration. All teams must have at least two riders with signatures for all the riders listed on the forms. Do not bring forms to registration listing riders who have not signed the form. If one of your riders is late, for five dollars he can fill out and sign another form with the words "add a rider" at the top. Do not, under any circumstances, get on the track or allow anyone to get on the track without properly registering. At least one racer lost his license and faces big fines for this at Texas World. The CMRA's souvenir program, as fantastic as it is, was a little deficient in the history department. We failed to note that Steve Belt won D Production Novice at the '88 GNF and that Sander Avant was the E Production Novice Champion in '85. There are undoubtedly some other oversights and if you'll let us know, we'll make a note of it and will fix next years program.

Not everybody has turned in their requestor forms for their free subsciption to Roadracing World. Requestor forms are available at the forms table in

registration or call the club office.

A helmet was found at Oak Hill. If you lost one, call Ken Bailey (409) 822-9197 or Jeff Covington (409) 696-8080 and describe it. Maybe they've found it for you. A note from registration; hang on to your reciepts. You need them if (1) You want a refund, or (2) as proof that you entered a class. Paperwork, paperwork, everybody hates filling out the forms in registration. Take your time and get it right the first time.

The Formula Three class has been re-instated on an experimental basis (no trophys). This class, along with A, B, & C Production Expert are in danger of being dropped due to low turn-out. Use it or lose it.

Scoring turned out to be a big problem at Texas World. For safety's sake, we will no longer allow the scorers to stand next to the track without a barrier for protection. Last year at Loudon, a rider came off his bike and the machine continued on it's own, striking the starter and almost killing him. The scorers must stay behind the wall that separates the main straight from pit road. This is about 30 feet further back than it used to be. From this point, they could no longer use the front number plate, but had to use the side plates instead. Most (not all) of your side plates are a joke. We came dangerously close to having to throw out a race as unscorable. The only solution we can come up with is standardized number plates. From now on, all CMRA racebikes (except Yamaha TZ 250's) must have approved number plates bolted to the front and both sides. The club sells (at cost) the approved style of plates at every race. We will allow the type of aftermarket (not homemade) front plate that blends into the air snorkels. All side plates must be exactly like the club sells. They must be mounted straight and level somewhere behind the rider and may not be cropped or made smaller. Exposed bolt heads must be painted to match the plate or number. ALL NUMBERS MUST BE EXACTLY THE SAME FONT AND SIZE THAT THE CLUB SELLS. They must be carefully applied, straight without crowding. We are serious about this, you will not get a tech sticker with your pie plates anymore. The deadline for compliance is after the next race at Oak Hill, so get your plates and numbers and get busy.
